THE R. P. RITHEIT will probably not get away before Monday or Tuesday at the very earliest on account of having to wait for sugar. The American-Hawaiian steamships have the preference in the sugar that comes over from the other islands, and it is they have the first go at it, and consequently the sailing vessels are frequently delayed.

THE CLAUDINE sails Friday for Maui ports.

Andrea Shabero appears before the House Committee and argues that the Littlefield bill threatens the wine industry of the nation.

Berkeley's fashionable section is bottled up by West End vigilantes, who are armed with shotguns to prevent garbage dumping.

Justice David J. Brewer, speaking at Baltimore, said that the big stick was swung long before Roosevelt became president; that government by injunction was a good thing and that there should be no concealment of judicial procedure, particularly in divorce cases.

The French cabinet voted formally to send 4,000 additional soldiers to Morocco with the object of continuing the aggressive policy against the Moors.

WATERFRONT NOTES

PURSER CHARLIE DREW of the Matson Navigation Company's liner Hilonian will be a mighty popular man among the pen-pushing fraternity. It keeps up the good work in the way he has started. This is the second trip of the Hilonian with wireless apparatus on board, and ever since she has been in talking distance, messages have been flying through the air, not only to the company here, but also to the Press. Last night he sent an ether-gram to the press, which read as follows: "Three hundred forty-four miles off Honolulu at 8 p. m. Due at wharf 5:30 tomorrow. All well. Weather fine." This morning at about 5:30 he sent a message to the effect that the boat was blowing along about 150 miles from Honolulu, and later on this morning a wireless came from him addressed to the "Press" with the passenger list.

THE INTER-ISLAND COAL PILE, which caught fire in some unaccountable manner the other day, is still burning and is causing the company a great deal of expense and trouble. The first was first discovered Monday morning, and it has been burning steadily ever since. A large force of men kept at work day and night trying to extinguish the smoldering blaze, but it will be probably some time before they do so, for there is considerable coal on top of that which is burning.

THE MIKAHALA brought in the following freight this morning: 4650 bags A sugar, 227 bags taro, 48 wine barrels, 32 bags empty bags, 10 pair car wheels, 38 horses, 1 dog, 38 packages sundries. Purser Chaney reports the Despatch discharging freight at Eleale and the Ke Au Hou at Kilauea. The Mikahala had good weather on the homeward trip.

ACCORDING TO ADVICES received on board the Japanese boat Kasato Maru just before she sailed, all the steamship companies plying between the Japanese and American coasts are shortly to be fitted with wireless. It is said that the Kasato Maru will be one of the first to be thus fitted out.

THE HILONIAN will probably be met by a large crowd of people tonight when she comes in. This is her first trip with her wireless apparatus, and she is doing considerable "talking." Purser Charlie Drew is the operator.

THE AMERICAN SHIP Marion Chilcott, Captain Larsen, 16 days out from Monterey, arrived here this morning with a cargo of oil. She was towed to the Railroad wharf by the Intrepid.

THE STEAMER NIHAU brought 5850 bags P. sugar and one automobile as her freight list. She had no passengers on either trip.

THE SCHOONER KA MOI is lying at the foot of Haeckfeld wharf this morning.

THE SCHOONER CONCORD may call this afternoon for Kalaupapa.

THE MIKAHALA sails tomorrow for Kaula ports at 5 p. m.
